Snowflake Screen: hinge test first

One hinge at full size, two pin-hole sizes. 24 min, 7.5 g.

1 Print the test and cut two pins

- **snowflake_hinge_test.3mf, flat, no supports.**
- Cut two 28 mm pieces of 1.75 mm filament, straight ends.
- One notch on the leaf = 2.0 mm hole. Two notches = 2.3 mm.

2 Push a pin into each and try them

- **Push down from the open end until it stops at the closed end.**
- Fold each one back and forth, about 100° each way.
- Stand it on its edge at an angle: does it hold its angle, or flop?

Good

- The pins go in by hand, all the way.
- The leaves turn smoothly and never stick together.

Tell me

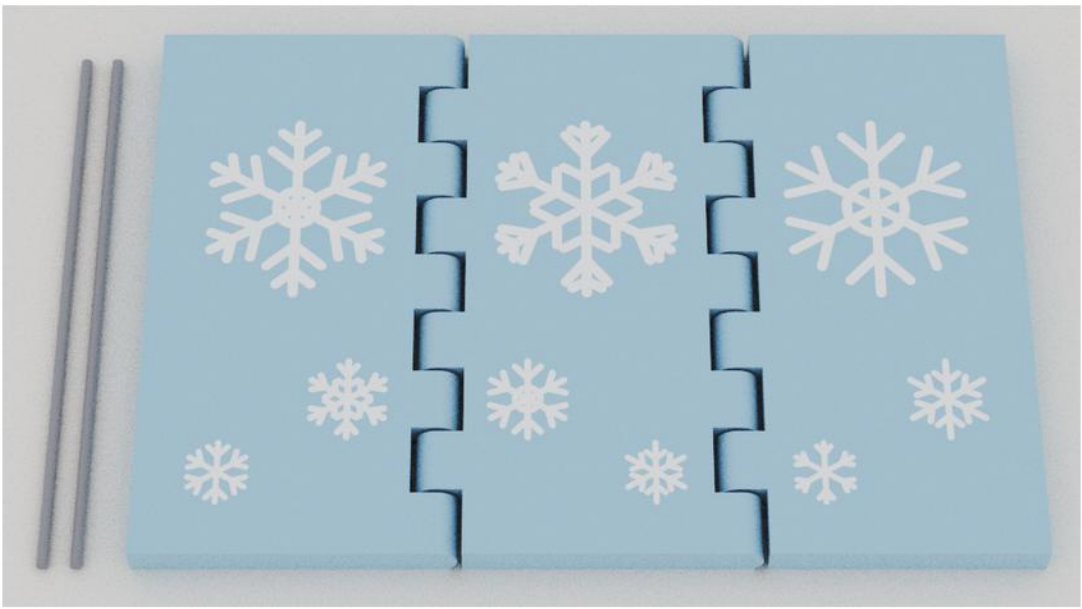

- which hole you prefer (1 or 2 notches),
- if a pin won't go in, or the leaves were stuck.

Design-review renders of the real parts, not photos. Ice blue and white are the print colours.

Snowflake Screen: printing

Three panels in one print, flat. Ice blue and white.

1 Print the screen

- **snowflake_screen.3mf: three panels, their hinge knuckles interleaved.**
- Face up, no supports. The snowflakes are the top three layers.
- About 2 h 10 m. Blue 40.7 g, white 2.1 g. 0.2 mm layers.

2 Cut two pins

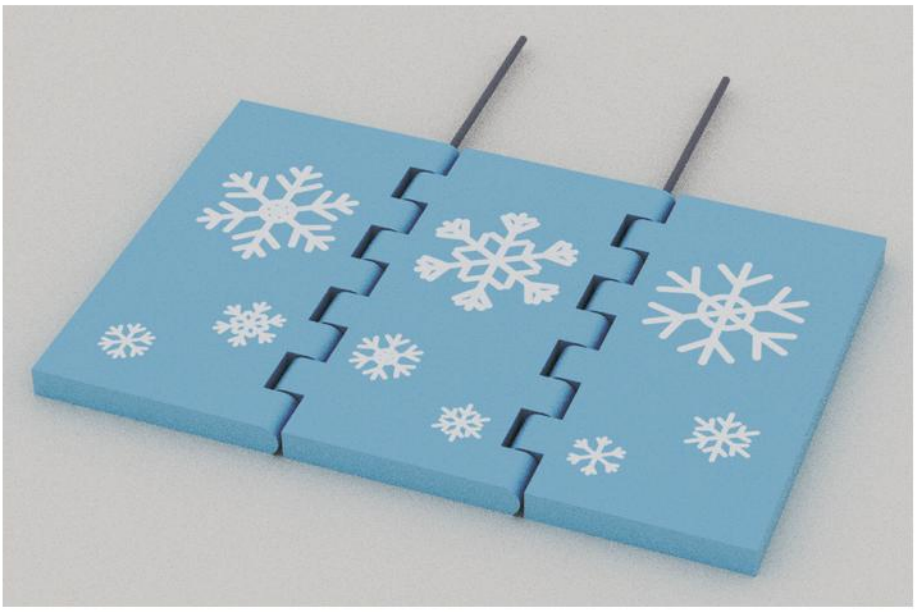

- **Two 88 mm pieces of 1.75 mm filament, straight ends.**
- Any colour: only the ends show, at the top of each hinge.

Design-review renders of the real parts, not photos. Ice blue and white are the print colours.

Snowflake Screen: pinning and standing

Design-review renders of the real parts, not photos.

1 Push a pin down each hinge

- **Into the small hole at the top, snowflakes facing up.**
- Push it all the way down: the hole is closed at the bottom.

2 Fold the side panels back and stand it up

- **Snowflakes to the front, the two wings turned back.**
- It stands best with the wings at about 30 to 60°.
- The hinges stop at about 100°: it doesn't fold flat.

Good

- The panels fold smoothly.
- It stands on its own on a flat shelf.

Tell me

- if a hinge is stiff or loose,
- or a snowflake printed badly.

Design-review renders of the real parts, not photos. Ice blue and white are the print colours.
